The journal publishes, in English and in Ukrainian, research articles in basic areas of theoretical and applied mathematics, including, but not limited to: analysis, algebra, geometry, topology, probability theory and mathematical statistics, differential equations and mathematical physics.

Журнал публікує англійською та українською мовами дослідницькі статті з базових областей теоретичної та прикладної математики: аналіз, алгебра, геометрія, топологія, теорія ймовірностей і математична статистика, диференціальні рівняння, математична фізика та інших.
